

Cheek Retractor

-Anglewider-

Made in Japan

Soft

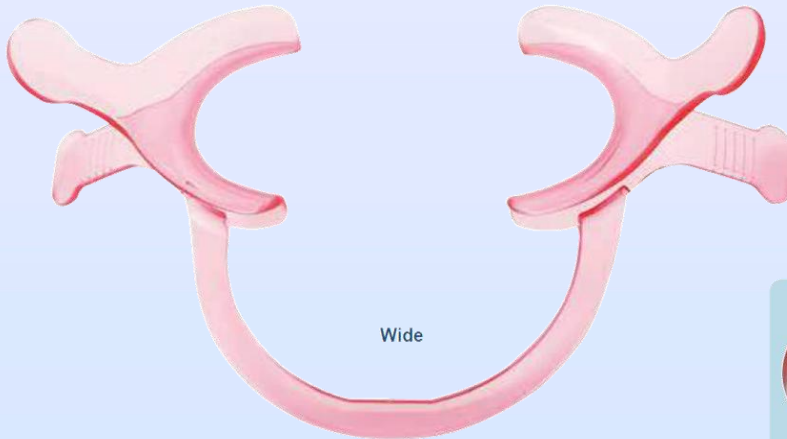

*Soft type is pale blue colored.

*Material / TPX

-Anglewider-

*It opens corners of the mouth, and allows clear views without auxiliary personnel.
*The inner wings retract buccal mucosa, and thereby oral vestibule is clear.

Wide

*Material / TPX

*While it retracts angle of mouth, the inner wings retract buccal mucosa.

*The wings retract oral vestibule, which provides you with comfortable environment to bond orthodontics brackets, serve oral care and fill resin as well.

*It opens corners of the mouth, and allows clear views without support.
It is absolutely convenient for taking a photo of mouth, serving oral care, doing orthodontics treatment.
*It is in size for infants to lower elementary school kids.
